

HONEY & LAVENDER Deb Strain

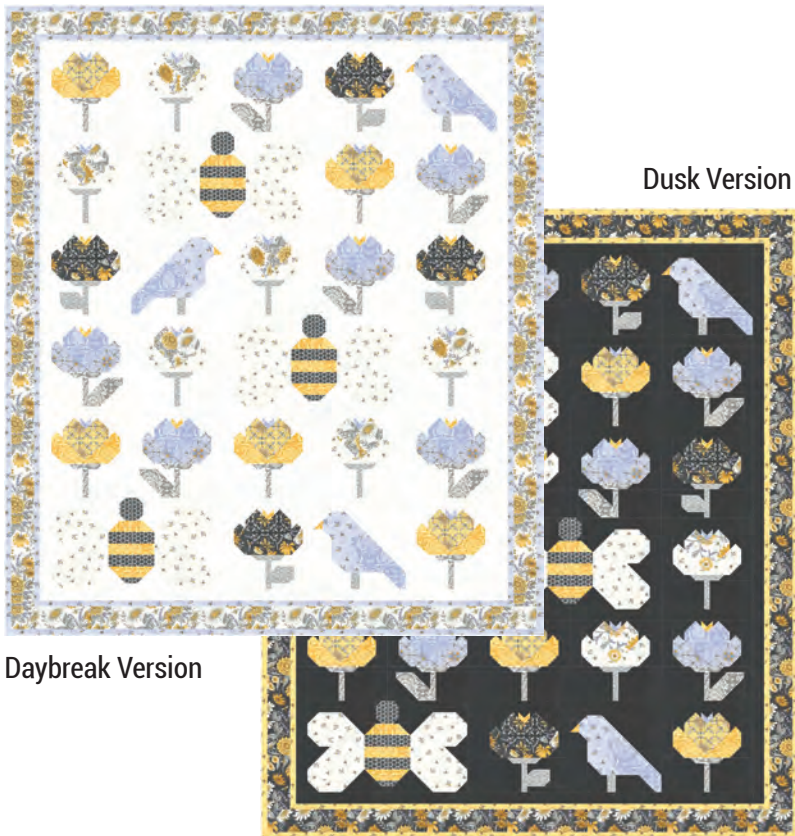

Bees are one of my favorite subjects when designing fabric! I love the color palette, the icons, the sayings and everything about bees and bee keeping:) I was watching the Bees in our garden last spring as they buzzed among the lavender and thought..."what a perfect addition!" Accents of lavender are scattered throughout this, my newest BEE collection and it just adds a softer, fresh feel to the group! Whether you love bees, the flowers, the sayings or the colors, "Honey and Lavender" continues to "BEE true" to my popular BEE series, but with a sweet little addition of lavender!
